WHY CHOOSE MAX BUILDERS

CONNECTED CLIENTS

- ▶ Clients have real time access to project data from any Internet - connected device or phone app
- ▶ Improve accountability with documentation, tracking and record keeping
- ▶ Reduce risk, rework and operational costs

Maxx Builders Project Portal

When every team member has real-time access to the information they need, we can all work seamlessly together. This enhances collaboration and directly benefits your project's bottom line. Our secure Maxx Builders Project Portal was designed with this result in mind. An easy-to-use dashboard provides access to project-specific apps, custom reports and analytics, building information models, progress photos, team calendar and more, all at your fingertips, anytime, anywhere. From your board room, to the designers's work room, right to the heart of your active job site

QUALITY CONTROL PLAN

- ▶ Building Enclosure Coordination Program
- ▶ Water Incident Prevention Program
- ▶ Mechanical, Electrical & Plumbing Coordination Program
- ▶ Site Specific Quality Planning
- ▶ Quality Incident Reporting

Maxx Builders QA/QC Plan

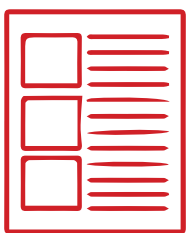

The objective of Maxx Builders quality control program are managed at each level of our organization and are ultimately controlled with the implementation of project specific quality assurance plans. Our approach to quality begins at the estimating stage and is followed through each operational step with adherence to Maxx Builders standard operating procedures. Our processes are standardized throughout the organization and documented within Maxx Builders Estimating, Project Management and Field Manuals.

WHY CHOOSE MAX BUILDERS

TECHNOLOGY INTEGRATED

- ▶ Manage, Measure, Inspect and Communicate Site Progress with Drone Data
- ▶ Utilizing VR for Visual Planning
- ▶ Utilizing VR / AR for Constructability Analysis

LEAN CONSTRUCTION

- ▶ Collaborative work planning
- ▶ Sub/Vendor prequalifications process considers complexity of project requirements with team input
- ▶ Pull planning and schedule Risk Analysis
- ▶ Continuous review of lessons learned and best practices

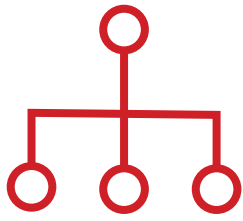

Maxx Builders Tech-Integration

To execute a successful construction project takes more than just labour and materials. It takes effective communications and accurate, timely information to deliver great results. Our goal is always to provide up-to-the-minute project information that's easy for the entire team to access, Wherever and whenever it's needed - starting in the design phase, through project closeout and for every milestone in between. That's why we lead the industry in putting the most sophisticated technology solutions to work on every project. Not technology just for technology's sake - but to help deliver quality, schedule and cost certainty you can count on.

Maxx Builders Lean Processes

Our team members are developing better ways to build buildings and provide facility management solutions using technology, process improvement and collaboration. We are committed to providing you with Lean solutions that add value, minimize waste and promote safe outcomes. Maxx Builders Lean approach is powering excellence.

WHY CHOOSE MAX BUILDERS

SCHEDULING

- ▶ Weekly Updates to Scheduling
- ▶ 2-week Look ahead, 4-week Look ahead
- ▶ Work-breakdown Structures
- ▶ Critical-path Scheduling
- ▶ Gantt Charts
- ▶ Pull Planning

On-Time Completion

Once construction starts, we'll ensure the project stays on schedule through our collaborative work planning system. We will drive the process through clear identification of key milestones, maximizing accountability, and ongoing measurement against the plan. And you will always know exactly where your project schedule stands with our commitment to communication and innovative reporting tools. In addition, Maxx Builders innovative schedule risk analysis can take a deep dive to statistically analyze schedule risks, identifying where added resources will have the greatest impact and maximizing recovery opportunities.

PROCUREMENT

- ▶ Providing bid packages with detailed instructions, site utilization plans, and schedules so the bidders understand the plan for executing the work and when materials are due to be delivered to the site

Procurement Plan

Lean procurement strategies add value and eliminate waste on all of our construction projects. A well executed lean procurement plan is put in place upon project kick off to ensure material is ordered in-time for project to stay on schedule.
